

NAIL EQUIPMENT COURSE

At the Australasian Beauty Therapy Academy, we aim to provide students with a reliable, and flexible learning and assessment process, where evidence gathered through a range of methods is validated against the unit of competency.

Practical sessions can take place in school hours and in both practical training classes and the Student Clinic. The Student Clinic simulates a Beauty Salon environment and provides actual beauty services to members of the public. In this environment, students are able to apply the full range of competencies against learning outcomes in a supervised environment.

This continuous assessment process, which is on going for the full duration of the course, provides strong evidence to support the student's final course outcome as well as a tool for constant student feedback and improvement during the course.

1. DESCRIPTION:

This course is designed for those wishing to develop the skills and knowledge to use electric file equipment in conjunction with artificial nail applications. It requires the ability to consult with clients, select from a range of bits and use electric equipment to prepare for or modify an artificial nail application. The electric nail file service can be an individual service or form part of a series of services.

This unit applies to nail technicians and beauticians in beauty and nail salons. In this environment they interpret observations and information following known routines in order to safely use electric nail files.
